VICTORINOX

CORPORATE GIFTS

MORE THAN 125 YEARS OF TRADITION AND EXPERIENCE

Victorinox products have accompanied people through life's adventures since 1884. Precise and elegantly engineered, our company is proud to represent the distinguished characteristics of our country through the manufacturing of knives. They are one of the key symbols of excellent Swiss quality and ingenuity.
Still today, the core values upon which our business and manufacturing is based, are as relevant as they were in 1897 when Karl Elsener invented the Original Swiss Army Knife: Functionality, innovation, iconic design and uncompromising quality. Victorinox creates products which are designed to be true companions for life. They are the ambassadors of our timeless Swiss values – as timeless as the classics you will discover on the following pages.

Today Victorinox produces more than 100'000 Pocket Tools, Household- and Professional Knives per day. We market our products in 125 countries on all five continents and a considerable part thereof is used as Promotional Gifts. The typical values such as quality, innovation, functionality and iconic design leave a lasting impression and guarantee an unmistakable and lasting image transfer.

Our products are the result of the dedicated work of 2000 individuals who are part of the Victorinox family from around the world. It is the culmination of their contributions which make Victorinox products what they are: unique.

We are pleased to offer you in this catalog a carefully selected choice of favoured promotional products.

Victorinox

Carl Elsener

Carl Elsener

We guarantee all Victorinox Knives and Pocket Tools to be of first class stainless-steel and also guarantee a life time against any defects in material and workmanship. Damages caused by misuse or abuse are not covered by this guarantee. The guarantee for the electronic parts is, as worldwide usual, 2 years.

INSCRIPTION ARTWORK & PRINT PROCESSES

INSCRIPTION ARTWORK

Electronic files:

Artwork for company logos
Fonts must be converted to paths. The colors must be defined precisely with Pantone, RAL or HKS numbers.

Adobe Acrobat | eps file | Adobe Illustrator

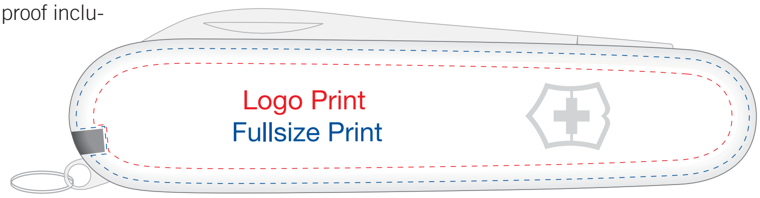

Image files for photographic prints
The resolution of the image file must be 300 dpi and provided full size (1:1). The file may be in RGB or CMYK color space.

tif file | jpg file | Adobe Photoshop

Design suggestions
Design suggestions may be produced in Adobe Acrobat and Adobe InDesign, but they must be specially prepared for tamponprinting.

Adobe Acrobat | Adobe InDesign

Sample Proof 1:1
On various products we are able to send you a 1:1 color PDF print proof including the print surfaces.

PRINT PROCESSES

TAMPONPRINT

Today over 90 % of all imprinting orders at Victorinox are executed with Tamponprint. On the one hand we make use of spot color imprinting with up to six colors and, on the other hand, we do photo prints (CMYK); in any case your CI will be reproduced to the highest level of conformity. In both procedures color is extracted with an elastic stamp from a steel plate, where the image is etched-in, and is then transferred to the object to be printed.

Applicable on: 58 mm-/65 mm-/84 mm-/85 mm-/91 mm-/111 mm- / SwissCards-scales
Exceptions: Wood / EvoGrip / SilverTech

Protective lacquer
All Tamponprints applied on Cellidor scales are protected with a high gloss lacquer. Thanks to this hard lacquer the prints are highly resistant to abrasion and chemical substances. This process is environmentally friendly and the lacquer is food safe. The protective lacquer increases the abrasion of the prints by > 100.

Applicable on: Cellidor brilliant
Exceptions: scales including ballpoint pen or LED switch, Evolution

ETCHING

The perfect method to decorate steel parts durably. The inscription occurs through electrolytic oxidation (electrolyte and etching current). The refining appears in anthracite/dark grey and excels with long durability.

Applicable on: Steel (blades and scales SwissTool)

METAL INLAY

The logos and inscriptions are created photochemically and then flush pressed with high temperature into the scales. This method excels with a long durability and a high class appearance.

Applicable on: 58 mm- / 84 mm- / 91 mm-scales (only front side)
Exceptions : transparent scales / scales with LED switch

HOT STAMPING

Stamping a motiv to a certain depth is done with the help of a brass stamp, stamping transfer foil, heat and pressure. Suitable for 1-color reproduction of simple logos, narrow fonts and numbers in silver, white, gold, blue, red, black or green (standard colors only). For small quantities 5 standard fonts are available (see illustration) without die costs.

Applicable on: 58 mm- / 84 mm- / 91 mm- / 111 mm-scales
Exceptions: scales with LED or ballpoint pen / SilverTech

Helvetica

ENGRAVING

A tool cuts the font into the material. On plastic surfaces the engraving cavity is then filled with a contrasting color. For diamond engraving on the SwissTool logos and inscriptions are also possible. They appear contour (see illustration). Suitable for small runs or individual names in the standard fonts as marked below.

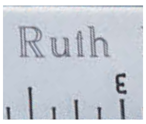

Applicable on: 58 mm- / 65 mm- / 84 mm- / 85 mm- / 91 mm- / 111 mm-scales and steel
Exceptions: scales with LED / SilverTech / Wood / EvoGrip / RangerGrip / 2-component scales

Block letters Futura

Block letters Futura italics

Ornamental letters Font Modrome

Logo and name of company Diamond engraving

LASER ENGRAVING

Laser engraving is suitable for a range of surfaces. On wood or rubber it develops a depth effect and is therefore also haptically perceptible. On metal the engraving appears in anthracite/gray and features high wear resistance.

Applicable on: EvoWood, EvoGrip, RangerGrip, Cabrio Pen Roller Ball and MagLite Flash Lights

IMPRINT ON ALOX SCALES

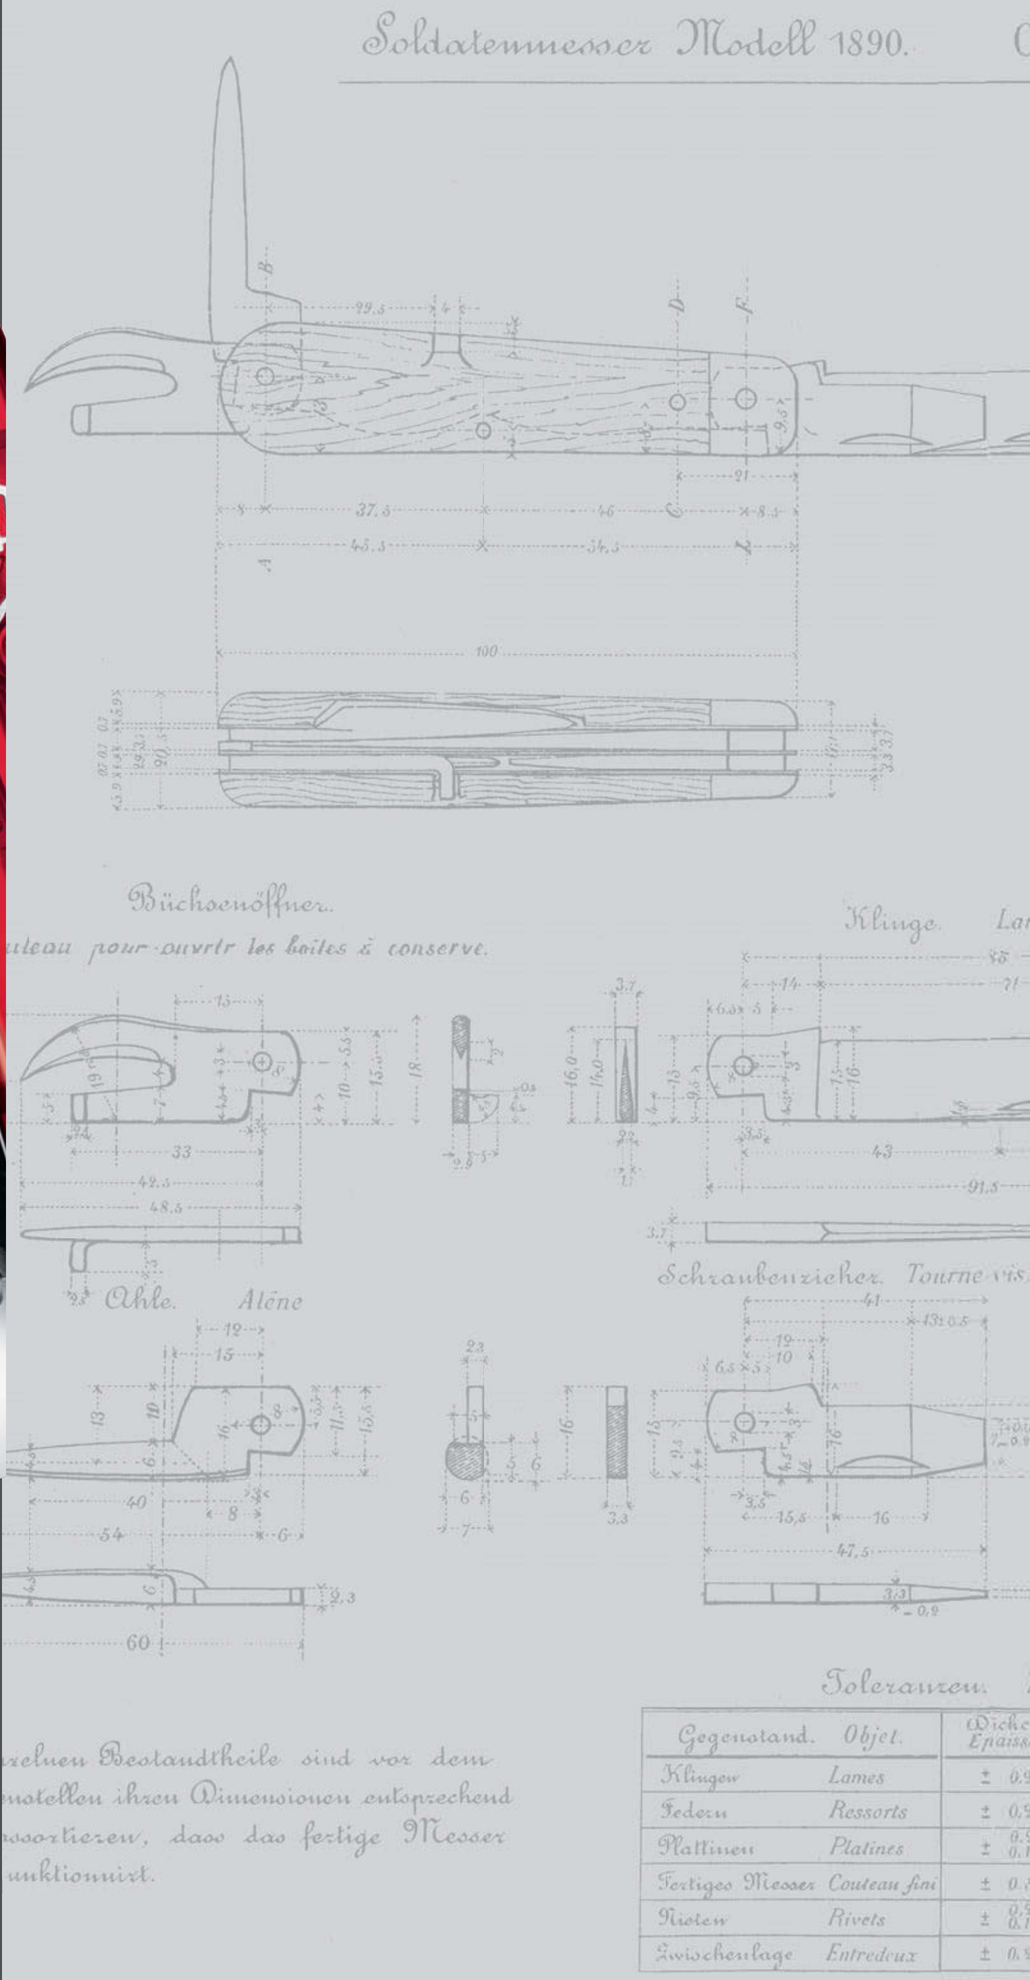

A silicone rubber stamp is used to transfer ink from the engraved steel printing block to chemically treated hence microscopically porous handle. The surface is then sealed and the ink particles become enclosed in a wafer-thin anodized layer making it scratch and impact resistant. Color fidelity limited. Imprint area on back side.

Applicable on: Alox scales

FUNCTIONS & COLORS

SMALL POCKET KNIVES

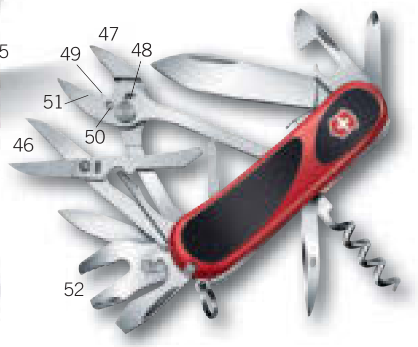

1. blade
2. nailfile with
3. – nail cleaner
4. scissors
5. key ring
6. tweezers
7. toothpick
8. nailfile with
9. – screwdriver
10. caplifter with
11. – magnet. Phillips screwdriver
12. – wire stripper
13. bright LED
14. ballpoint pen
15. USB drive
16. serrated edge scissors and lever
17. nail clipper

MEDIUM POCKET KNIVES

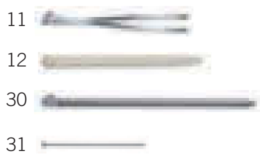

1. large blade
2. small blade
3. cork screw
4. can opener with
5. – small screwdriver
6. cap lifter with
7. – screwdriver
8. – wire stripper
9. reamer, punch
10. key ring
11. tweezers
12. toothpick
13. scissors
14. multi-purpose hook
15. wood saw
16. fish scaler with
17. – hook disgorger
18. – ruler (cm + inches)
19. nailfile with
20. – metal file
21. – nail cleaner
22. metal saw
23. screwdriver 2.5 mm
24. chisel and scraper
25. pliers with
26. – wire cutters
27. – wire crimping tool
28. Phillips screwdriver
29. magnifying glass
30. pressurized ballpoint pen
31. pin, stainless steel
32. mini-screwdriver
33. sewing eye
34. wrench with
35. – Hex drive 5 mm
36. – Hex drive 4 mm for the bits
37. case with 6 bits (bit slotted 4 mm, bit Phillips 2, bit hex 4 mm, bit Torx 8/10/15)
38. Digital clock 12h/24h
39. – Alarm
40. – Countdown
41. – Timer
42. Altimeter m/feet
43. Barometer
44. Thermometer
45. LED
46. serrated edge scissors and lever
47. pliers with
48. – shifting opening
49. – wire crimping tool
50. – wire cutters
51. – nut wrench
52. universal wrench combination tool:
53. – caplifter
54. – can opener
55. – screwdriver
56. – wire stripper

LARGE POCKET KNIVES

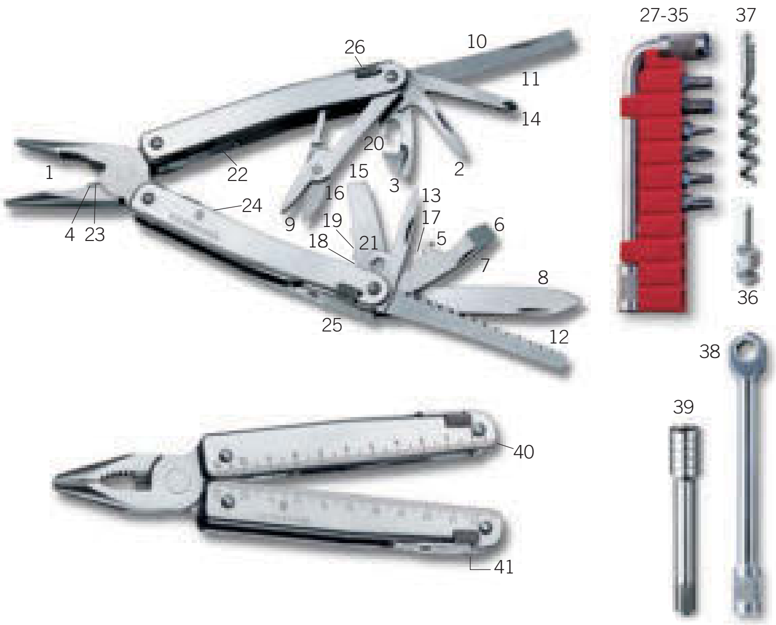

1. large lock blade
2. cork screw
3. can opener with
4. – screw driver
5. cap lifter with
6. – screw driver
7. – wire stripper
8. reamer, punch
9. keyring
10. tweezers
11. toothpick
12. wood saw
13. scissors
14. long small Phillips screwdriver
15. metal saw with
16. – metal file
17. pliers with
18. – wire cutters
19. – wire crimping tool
20. Phillips screwdriver 1-2
21. mini-screwdriver
22. lock blade for one hand opening with 2/3 wavy cut
23. Phillips screwdriver
24. window breaker
25. lockable crate opener
26. seatbelt cutter
27. saw for shatterproof glass
28. Nylon cord

(Hunter XT: gutting blade)

29. cheese blade
30. large lock blade $^{2}/_{3}$ wavy edge
31. needlenose pliers with
32. – wire cutter
33. – nut wrench
34. bit holder
35. – bit Phillips 3
36. – bit for slotted head 0.6 x 4.5 mm

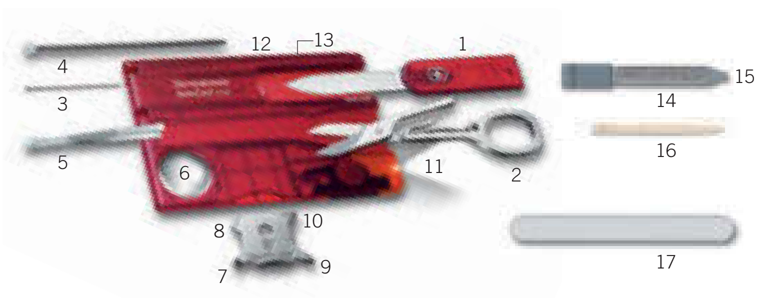

(Hunter XT: gutting blade)

SWISSTOOLS

1. needlenose pliers
2. screwdriver 2 mm
3. screwdriver 3 mm
4. wire cutter for thin and soft wire up to 40 HRc
5. cap lifter
6. screwdriver 6 mm
7. crate opener
8. blade
9. scissors
10. metal file
11. metal saw
12. wood saw
13. reamer and punch
14. Phillips screwdriver 1+2
15. chisel/scraper
16. cable cover cutter lengthwise
17. wire bender
18. wire stripper and scraper
19. cable cover cutter circular
20. can opener
21. multi purpose hook
22. coupling for corkscrew
23. hard wire cutter
24. lanyard hole
25. ten individual springs
26. lock release
27. case
28. bitwrench
29. – bit Hex 3
30. – bit Hex 4
31. – bit Phillips 0
32. – bit Phillips 3
33. – bit Torx 10
34. – bit Torx 15
35. space for additional bits
36. mini-screwdriver
37. corkscrew
38. ratchet (30 Nm) (instead of bitwrench)
39. extension bar
40. ruler (230 mm)
41. ruler (9 Zoll)

SWISSCARDS

1. letter opener (blade)
2. scissors
3. pin, stainless steel
4. pressurized ballpoint pen
5. tweezers
6. magnifying glass
   Quattro drive with
7. screwdriver 3 mm
8. screwdriver 5 mm
9. Phillips screwdriver 00–0
10. Phillips screwdriver 1–2
11. LED
12. ruler (cm)
13. ruler (inches)
14. nailfile with
15. – screw driver
16. toothpick
17. glass nailfile
